## PREPARE YOURSELF FOR SUCCESS EVERYDAY!

*Tim Dodd - General Manger, OH*

Starting every day on the right track is the KEY to success. If you are not organized you are making your job harder than it needs to be.

Here are some examples that you can use to prepare yourself:

- Make sure your tablet is plugged in at night and has a full charge for the beginning of your shift.
- Always restart your tablet before starting your shift.
- Always make sure your cell phone is charged and ready to go.
- Make sure you look PRESENTABLE in your uniform and with your badge always showing while working. Think to yourself “Would I pay this person at my door?”
- Have a game plan of the route you are going to run that day. You can easily bookmark your route for the day and concentrate on that area do not bounce around stops and let your route run you. “ You run your route “
- Make sure your magnets are visible on your vehicle for all to see.

We should plan ahead, and not plan to fail. Let's be organized, professional, and consistently set and achieve our goals every week by preparing ourselves for success.

“

*We should  
plan ahead,  
and not  
plan to fail.*
